

# Testimonials

**We are pleased to present a collection of recent client testimonials and some of our major achievements**

---

For nearly 40 years, AEA has helped hundreds of public and private sector organisations in the UK and overseas to respond to environmental challenges and opportunities created by worldwide drivers – energy and climate change, air and environmental quality, risk management and due diligence, resource efficiency and waste management, sustainable transport, innovation and knowledge transfer, and sustainability.

I have worked closely with AEA over the last few months to develop case studies for our business advice programme. I found them to be a terrific resource and partner. The work was carried out with a minimum of fuss, resulting in an end product that was on brief, in budget and within timescales. I would recommend AEA to any other organisation and feel that they provided an 'added value service' which enabled a quick and smooth turnaround of work. The quality of work delivered has been of a high standard and I have been most impressed with their flexibility when dealing with any additional requests.

**Chris Beaton**  
WISE Group

AEA's project manager handled any issues that arose during this contract with professionalism and grace, and a willingness to be flexible and think creatively. Not only was he very competent and easy to work with, but he was also very approachable; I never had to think twice about picking up the phone if I had a question.

**Kristen Guida**  
Manager (acting), Climate South East

I would like to express my sincere thanks to the team at AEA for everything that you have done in providing technical and policy support for the consultation process for the new Climate Change Agreements. Much of what we have achieved has been in record time and quite frankly we could not have done it without you. So, once again, a big THANK YOU to you all.

**Martin Smith**  
Head, Climate Change Agreements Team,  
DECC

We were really pleased with the end result. AEA produced exactly the type of report we were looking for and a tool to help us assess all of our future projects.

**Julie Middleton**  
Programmes Manager,  
The Travel Foundation

“I continue to be impressed with the work that AEA does for us. This project was delivered within a very tight timescale, whilst also accommodating a number of amendments more or less at the last minute. The work was delivered within the timescales/interim milestones set initially. There were no concerns with the project management and I had complete faith that if a problem had occurred, I would have been notified and attempts to resolve would have been undertaken asap. Communication, project management and competence all excellent.’

**Bethan Clemence**

Climate Change Officer  
Hertfordshire County Council

AEA has continued to provide and maintain a high level of professional support to Pfizer throughout the closure of Back Sand Point landfill. The level of commitment to tight deadlines and last-minute requests has been a great asset to the team.

**John O’Grady**

Project Manager, Pfizer UK Ltd

We commissioned AEA for this piece of work as it has a very good understanding of how local authorities function. We felt it was best placed to provide an objective overview of what ‘partnerships’ were currently operating. From the outset, AEA clearly understood our requirements and provided us with some very useful information.

**Pete Dickson**

Development Director, Verdant Group PLC

Over the years that we have been working with AEA on the Bio-energy Capital Grants Scheme, we have always found the staff to be helpful, knowledgeable, dedicated, reliable and easy to work with. The breadth of technical knowledge on bio energy has been of great assistance to us, both in ensuring that the Scheme complies with its objectives and in developing wider policy. Strong project management skills have kept the scheme on track and ensured that we have the feedback we need when we need it. Thank you to all of you.

**Kieran Power**

DECC Programme Manager,  
Bio-energy Capital Grants Scheme

The work AEA delivered met our objectives/ specification and has been well-received across Defra’s Adapting to Climate Change Programme, and by other Government departments.

**Will Lochhead**

Team Leader, Defra

---
